Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

2. Claims 13, 15, and 16 are rejected under 35 U.S.C. 102(a) as being anticipated by Yamano et al.
3. Regarding claim 13, Yamano et al. disclose “an electro-optic device (15 of Fig 10) comprising a deposited portion formed by ejecting a function liquid onto a workpiece (pg 7, par [0203] and see Fig 5, 8, 10).”
4. Regarding claims 15 and 16, Yamano et al. disclose “an electronic equipment having mounted thereon the electro-optic device (see Fig 60 and pg 74, par [0935]).”
5. Regarding claims 13, 15, and 16, “[E]ven though product-by-process claims are limited by and defined by the process, determination of patentability is based on the product itself. The patentability of a product does not depend on its method of production. If the product in the product-by-process claim is the same as or obvious from a product of the prior art, the claim is unpatentable even though the prior product was made by a different process.” *In re Thorpe*, 777 F.2d 695, 698, 227 USPQ 964, 966 (Fed. Cir. 1985) (citations omitted) Therefore, the process language of these claims do not make them patentable over the same product of the cited prior art.

Allowable Subject Matter

6. Claims 1-12 and 14 are allowed. The following is a statement of reasons for the indication of allowable subject matter: The prior art does not disclose or suggest "stippling means mounted on said moving mechanism in a side-by-side relationship with said workpiece processing mechanism, said stippling means performing visibly recognizable stippling onto the workpiece" in combination with the remaining claim elements.

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Banno et al. disclose producing an electron emitting device by ejecting droplets of function liquid and detecting the state of the supplied droplets, but fail to disclose the patentable limitations set forth above.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian Goldberg whose telephone number is 571-272-2728. The examiner can normally be reached on Monday through Friday, 9AM-5PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Gray can be reached on 571-272-2119. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
